

A. LABORATORY-SPECIFIC INFORMATION

The following templates and examples can be used to note laboratory-specific information *required* to complete your lab's Chemical Hygiene Plan (CHP). These sections can be downloaded from the EH&S website at

www.ehs.washington.edu/resource/laboratory-safety-manual-510.

Your lab's CHP consists of the generic UW Laboratory Safety Manual, plus your lab's laboratory-specific information. These materials must be accessible to your workers at all times and your workers must know where these materials are located.

If you use printed copies of your laboratory-specific information, you should typically file these pages in the front of the *Laboratory Safety Manual* for easy reference, or maintain them in a location that everyone knows is the specified location of the laboratory-specific information for your Chemical Hygiene Plan (CHP). If you keep electronic copies of all or some of your laboratory-specific information, everyone in the lab must know current files location and how to access.

UW Laboratory-Specific Information

This Chemical Hygiene Plan (CHP) belongs to:

Laboratory Name:	UW Proteomics Resource
Chemical Hygiene Officer*:	Priska von Haller
Department:	Genome Sciences
Phone:	206-616-0659
Date:	9/4/2019

*The Chemical Hygiene Officer is the Principal Investigator, Faculty Member, or Supervisor who is responsible for the Chemical Hygiene Plan in the unit or laboratory.

This CHP covers the following laboratory spaces:

Building(s):	SLU Brotman
Room #(s):	B59
If Parts of Room(s), Description of Area:	South half of the lab

Figure C-1 Laboratory-Specific Information

This CHP, consisting of the **UW Laboratory Safety Manual** and our laboratory-specific information, was reviewed and updated:

[LAB NAME]	UW Proteomics Resource
Date: 9/4/2019	By: Priska von Haller

The items listed below identify our laboratory-specific information that is attached (or filed in its noted location), and that applies to our laboratory:

✓	Laboratory-specific information cover sheet (<i>i.e.</i> , these pages)
✓	Laboratory floor plan(s)
	General laboratory safety rules, applicable at all times in our laboratory
	Designations of individuals performing particular tasks (e.g., checking first aid supplies, maintaining chemical inventories, weekly eyewash check, etc.)
	Authorizations for individuals to use specific hazardous/controlled substances
	Any special instructions for receiving and storing hazardous materials
	Contents of chemical spill kit(s)
	Any special instructions for labeling containers
✓	Training records, or location if filed separately from this Plan
✓	Standard Operating Procedures (SOPs), or location if filed separately
✓	MyChem Chemical Inventory Report, or location if filed separately
	Locations of MSDSs, other reference materials, University or departmental safety rules that apply to us, equipment maintenance manuals, other paper documents (such as a building evacuation plan or departmental health and safety plan) if filed separately from this CHP, etc.
